

Rocket® D3® Database Management System

Easily create powerful applications for your business

D3® is the choice of more than a thousand application developers worldwide—serving top industries, including manufacturing, distribution, healthcare, government, retail, and other vertical markets. Rocket® D3® database-centric development environment provides software developers with all the necessary tools to quickly adapt to changes and build critical business applications in a fraction of the time compared to other databases; without compromising data integrity and with low administration costs.

Benefits/Features

Efficient performance

Delivers high performance via efficient file management that requires minimal system and memory resources.

Data security

Provides secure, simultaneous access to the database from remote or disparate locations worldwide.

Scalability and flexibility

Scales with your enterprise, from one to thousands of users.

Cost efficient

Reduces operating and system management costs—D3 systems can be easily managed part-time by non-technical staff.

Seamless interoperability

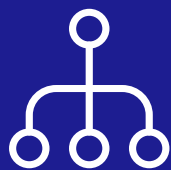

Interoperates with various databases and host environments through connectivity tools.

What our customers have to say

Rocket® D3® DBMS is the engine of our business. Rocket D3 powers everything that we have done for the last 16 years and has been instrumental in a five-fold expansion of our business to support almost 400 users today."

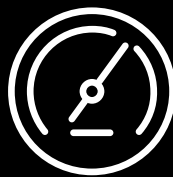

MARTIN TAYLOR
IT Director,
Coversure Insurance Services

With Rocket D3 you can:

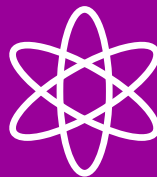

Support Microsoft's .NET framework

D3 .NET API provides a native bridge between a .NET application and a D3 data source.

Ensure availability

D3 Hot Backup provides high-performance replication of D3 data files.

Deploy restful services

MVS Toolkit eEnables developers to easily create and deploy MultiValue Web services for D3.

Use Java IDE

D3 Java API allows Java developers access to D3 multidimensional data from their preferred Java IDE.

Create powerful applications for your business with ease.

Learn how to modernize your D3 app and maximize ROI.
